

GOODWILL-TRADE LTD.

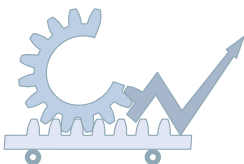

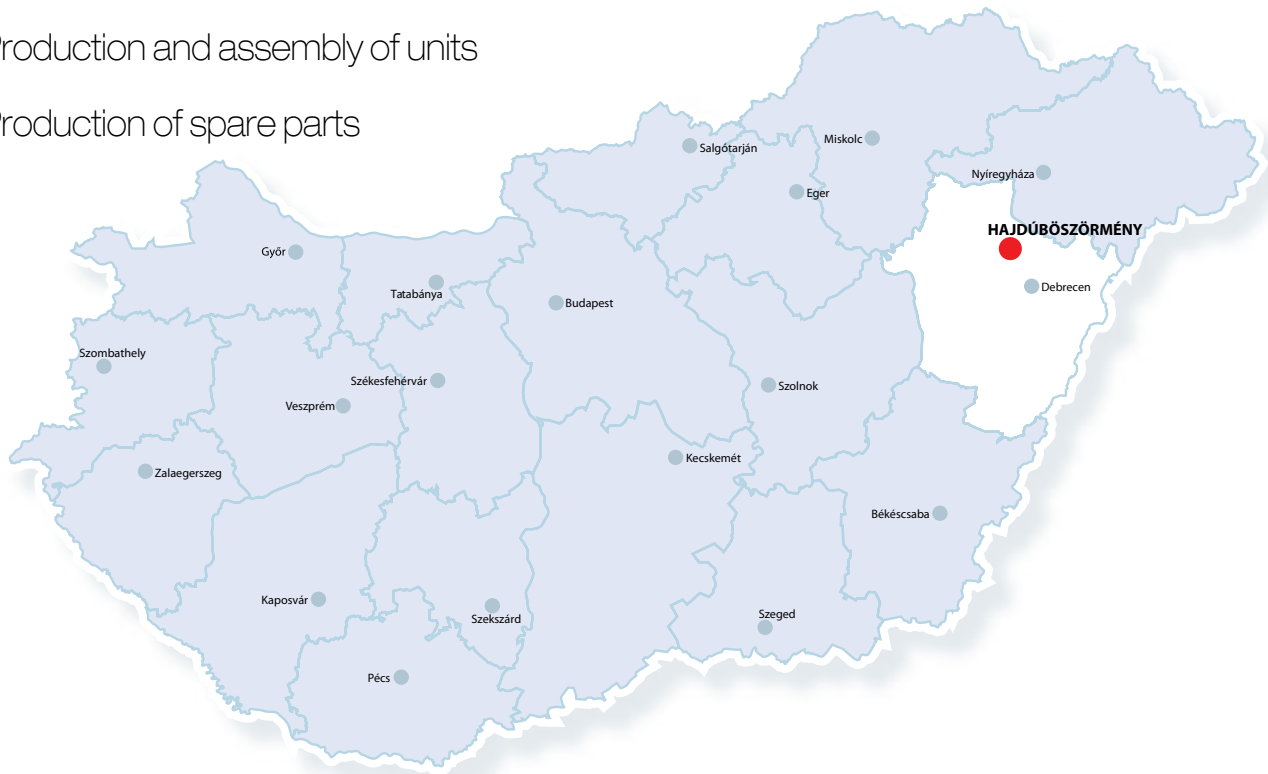

INTRODUCTION

Our company was founded in 1993.
We have been offering high quality technical solutions
for the local and international market since then.

MAIN PROFILES OF OUR COMPANY ARE:

- Design, construction and renovation of special machines
- Vacuum technology
- Leak test
- Special machines designed and produced for universities
- Production and assembly of units
- Production of spare parts

GOODWILL-TRADE LTD.

Address: 4220 Hajdúböszörmény, Bíró Péter u. 14. Hungary
Tel.: +36-52-560-540 • Fax: +36-52-560-541 • Mobile: +36-70-252-7293
Site location: 4220 Hajdúböszörmény, Külső-Hadházi u. 24. Hungary
Tel.: +36-52-561-038 • Fax: +36-52-561-039

Design and production of vacuum chambers

VACUUM TECHNOLOGY

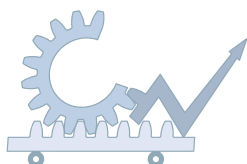

- We have great experience in the field of vacuum technology, we undertake:
- Design and production of special machines in the field of vacuum technology
- Design and production of vacuum chambers
- Repair and renovation of vacuum pumps
- Production of fittings

Repair and renovation of vacuum pumps

Renovation of molybdenum heat shield

DESIGN AND CONSTRUCTION OF HELIUM LEAK TEST SPECIAL MACHINES

The leak test is a combination of the first two sectors. The parts produced in mass production are qualified according to the requirements of the customer. The equipment is inserted into the existing machine lines, or a separate stand-alone workstation is created where the quality control test is performed.

AGK-06 helium leak test special machine

It investigates the evaporator of the freezers of household refrigerators.
